

FREMONT 758

LIQUID IRON-PHOSPHATE CONVERSION COATING CONCENTRATE

Fremont 758 is a clear liquid concentrated "appliance quality" iron-phosphate conversion coating compound specifically designed for use in five or more stage pretreatment systems employing a pre-cleaning zone prior to the conversion coating.

Multiple accelerators generate above average milligram coating weights which provide the maximum paint adhesion and salt spray resistance needed to meet or exceed the work quality many design specifications or contract qualifications require.

Your local Galaxy Account Manager will recommend starting concentrations and temperature needed to satisfy any given requirement.

Ask about our low-temperature alkaline ferrous or non-ferrous soak or spray pretreatment and final seal rinse products.

DIRECTIONS FOR USE: For spray phosphatizing use 2-4% by volume and 90-140°F for 60-120 seconds exposure time. pH is maintained between 5.0-6.0.

TITRATION PROCEDURE:

1. Take a 25 ml sample of your solution with the pipette and place it in the flask.
2. Add 5 drops of phenolphthalein indicator.
3. Carefully add 1.0N Sodium Hydroxide Solution to the mixture in the flask until the pink color appears. Record the number of mls of 1.0N Sodium Hydroxide Solution.

Percent by Volume Fremont 758 = mls x 1.935

DANGER: Acidic Product. Liquid. Corrosive. Can irritate or burn eyes. Can cause severe skin irritation. Harmful if swallowed. Do not get in eyes or on skin or clothing. Do not take internally.

No warranty, guarantee or representation is made herein with respect to the use of the products referenced herein or otherwise except that said products conform to the chemical description shown on their labels.

EXCEPT AS SET FORTH ABOVE, GALAXY ASSOCIATES, INC. DISCLAIMS ALL WARRANTIES, WHETHER EXPRESSED OR IMPLIED, WITH RESPECT TO THE PRODUCTS, WHETHER AS TO QUALITY, CONDITION, PERFORMANCE, MERCHANTABILITY, FITNESS FOR ANY PURPOSE OR OTHERWISE AND IN NO EVENT SHALL GALAXY ASSOCIATES BE LIABLE FOR ANY CONSEQUENTIAL DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE PRODUCTS OR THEIR USE.

FREMONT 758

In case of eye and skin contact, flush with plenty of cool water for at least 15 minutes. Get immediate medical attention. Remove contaminated clothing. Wash affected area immediately with plenty of water. Get immediate medical attention. Contaminated clothing, shoes, and leather goods must be discarded or cleaned before re-use. If ingested, DO NOT INDUCE VOMITING. If conscious, give large quantities of water. Get immediate medical attention. For inhalation, remove to fresh air. Treat symptoms. Get medical attention.

Do not store in direct sunlight. Open drums slowly to vent. Handle with rubber gloves, rubber apron, chemical goggles, face mask, and rubber boots. Avoid breathing vapor or mist. Eye wash and safety shower, or some other means of washing product off personnel, must be immediately available. Personnel handling this product should be acquainted with its characteristics and dangers. Keep out of reach of children. Not for manual use. L02-07

Consult MSDS for complete safety information.

ATTENTION:

When empty, the container may still be hazardous. Because containers, even after they have been emptied, still retain product residues (vapor, liquid or solid), all labeled hazard precautions must be observed. If emptied product containers of 119 gallons or greater volume are to be shipped, DOT requires the containers be triple rinsed (or equivalent) to remove any residue and DOT placards be removed or covered with plain placards before they can be shipped as empty containers.
